Beck & Pollitzer Limited and its subsidiaries (the "**Company**") are committed to conducting its business in a fair and ethical way, without using bribes or corrupt practices to obtain unfair advantages in its business dealings.

Introduction

“High Performance with Integrity” is a Beck & Pollitzer strategic imperative.

Beck & Pollitzer promotes the societal and environmental values of the United Nations Global Compact to its suppliers and third parties and uses its influence where possible to encourage their adoption. The Beck & Pollitzer Supplier Code (the “Supplier Code”) is based on the United Nations Global Compact and other international standards or accepted good practices. The Supplier Code is aligned with the Beck & Pollitzer Code of Conduct.

Beck & Pollitzer expects its suppliers to aspire to the standards defined in its Supplier Code.

Beck & Pollitzer is committed to being a leader in good corporate responsibility, and this commitment is embodied in the Supplier Code. The Beck & Pollitzer Responsible Procurement program has been created to extend the Beck & Pollitzer commitment to corporate responsibility to suppliers and third parties.

The Supplier Code is based on Principles for Responsible Supply Chain Management (the “Principles”) for ethics, labour rights, health and safety, environment and related management systems.

- Beck & Pollitzer supplier programs are consistent with the Principles.
- Beck & Pollitzer believes that society and business are best served by responsible business behaviours and practices. Fundamental to this belief is that business should not only operate in compliance with applicable laws, rules and regulations, but that our behaviours address underlying societal concerns.
- Beck & Pollitzer is aware that differences in cultures and laws create challenges to applying these Principles globally.
- Beck & Pollitzer believes the Principles are best implemented through a continual improvement approach that advances supplier performance over time.

The Supplier Code does not replace local law. Beck & Pollitzer expects suppliers and third parties to operate in compliance with applicable laws, rules and regulations in addition to the standards contained herein.

For the purposes of this Supplier Code, the term “suppliers” may include sub-contractors, labour agencies, materials’ suppliers, service providers, shipping lines, and other third parties. The Supplier Code will be reviewed & updated annually. The Supplier Code is valid from November 2022.

Monitoring against our standards

Adherence to the standards contained in this Supplier Code is one of the evaluation criteria in the Beck & Pollitzer supplier selection process.

Beck & Pollitzer expects suppliers to adhere to applicable legal standards and work toward the higher standards contained herein. Under some circumstances, where the suppliers or third parties have shown and continue to show a material commitment to improvement, Beck & Pollitzer is willing to work with them to bring about improvements through engagement and collaboration. This may include audits, development and progress monitoring of corrective action plans, referring suppliers to external experts, and other reasonable improvement plans.

Responsible Procurement – Ethical Standards

1. Labour Rights

Suppliers shall be committed to uphold the human rights of workers and to treat them with dignity and respect. The labour elements include:

1.1 Freely Chosen Employment

Suppliers shall not use forced, bonded or involuntary prison labour.

Forced Labour - Management Systems: a nominated manager with responsibility for HR at each site follows policies and procedures to ensure that all onsite workers, including agency and temporary labour, have freely chosen to be there and are fully paid for the work they do.

Prison Labour: the use of any prison labour is voluntary and clearly communicated to Beck & Pollitzer, and where used, all applicable local laws or international guidance is followed.

Notice Periods: workers are free to leave their jobs after reasonable notice and are paid on time and in full for the work they have done prior to leaving.

Retention of ID/Passports: workers are not required to hand over their identity papers to secure employment unless required to do so by local law. If this is the case, workers have access to their papers at all times.

Freedom of Movement: workers are able to freely come and go from the site or onsite accommodation at all times and are not controlled by security guards (e.g., monitored during breaks, followed to the toilets, etc.).

Cash Deposits: workers do not pay “deposits” to secure a job or employer-provided accommodation, nor do they pay excessive “deposits” for tools, training or personal protective equipment necessary to carry out their jobs safely.

1.2 Child Labour and Young Workers

Suppliers shall not use child labour. The employment of young workers below the age of 18 shall only occur in non-hazardous work and when young workers are above a country’s legal age for employment and the age established for completing compulsory education.

- Any young person below the local legal minimum working age where this is higher than 15.

Remediation: if children are found working, an appropriate remediation procedure to ensure the welfare of the child is put in place. If children are found working, suppliers will:

- Remove the child from the workplace immediately.
- Put in place a suitable plan to support the child, which may involve covering the cost of formal or vocational training, accommodation or other costs as necessary.

Young Workers: young people under the age of 18, legally able to work, do not carry out any hazardous work (chemical handling, strenuous physical labour, etc.) or night shifts, and all applicable local laws are followed, including access to education, training, health checks and number of hours allowed to work, etc.

1.3 Non-Discrimination

Suppliers shall provide a workplace free of harassment and discrimination. Discrimination for reasons such as race, colour, age, gender, sexual orientation, ethnicity, disability, religion, political affiliation, union membership or marital status is not tolerated.

Non-Discrimination - Management Systems: a nominated manager with responsibility for HR ensures adequate policies and procedures are in place at each facility to prevent discrimination as well as manage effective disciplinary procedures. Workers understand disciplinary and grievance procedures, and fines imposed on workers as part of a disciplinary action are legal and fair. Supervisors and managers found abusing workers are disciplined accordingly.

Harassment or Abuse: workers neither face nor are threatened with bullying, sexual harassment, sexual abuse, corporal punishment, mental or physical coercion or verbal abuse.

Role of Security Personnel: workers are not subject to unreasonable body searches, and physical security searches are only carried out by authorized bodies, according to local legal standards, and by same-sex security guards.

Suppliers shall communicate in a timely manner with workers regarding the basis upon which they will be paid. Suppliers are also expected to communicate with the worker whether overtime is required and the wages to be paid for such overtime.

Wages and Working Hours - Management Systems: a system is in place to monitor the hours and wages paid to all agency staff onsite, and complete hours and payroll records are kept for all workers onsite at all times.

Wages: workers are not required to do unpaid work. Workers' monthly pay, or piece rate, is at least at local legal minimum wages or industry benchmarks, and is paid regularly and in full, in accordance with local laws.

Overtime - Pay: overtime is paid according to all local laws, and where these do not exist, as a minimum at the same rate as normal pay, but ideally at a premium rate.

Benefits and Bonuses: all legally required benefits and bonuses are paid to workers on time and in full.

Working Hours: working hours are aligned with local laws or industry benchmarks.

Overtime Hours: overtime is voluntary and workers do not regularly work more than 12 hours of overtime per week.

Parallel Means: where local laws restrict trade unions, workers are able to form worker committees if they so choose.

2. Health, Safety and Environment

Given the breadth, complexity and size of the Beck & Pollitzer supply chain, the outlined standards in section 2 and 3 for Health, Safety and Environment (HSE) provide suppliers with basic standards and concepts that Beck & Pollitzer expects adherence to throughout its supply chain.

Beck & Pollitzer expects each supplier and third party to understand the applicable HSE standards for its specific products or services, and to augment these standards as necessary.

4 Animal Welfare

Animals shall be treated respectfully, with pain and stress minimized. Animal testing should be performed after consideration to replace animals, reduce the numbers of animals used or refine procedures to minimize distress. Alternatives should be used wherever scientifically valid and acceptable to regulators.

It corresponds with the US regulations, namely the AW Act (USC 7; 1966) and Regulations, and the US Guides for the Care and Use of Laboratory and Agricultural Animals (including all vertebrates).
